

Dear FCC:

I respectfully urge you to REJECT the NAB's petition 04-160. As a listener in a rural area, I am unable to receive the type of programming provided by XM Satellite Radio from any other source. The normal on-air broadcast stations are only interested in providing service to areas with high revenue advertising sources available, meaning that rural listeners are greatly limited in the type and amount of programming they can receive. I greatly value the service that XM Satellite Radio provides and gladly PAY for that service.

Sincerely,

Robert J. Duval
